

## FOR ALL YOUR SKIN CARE NEEDS

### INTRODUCING

## OxyOasis

Like all living things, skin needs oxygen to survive, reproduce and regenerate.

In younger skin, this process is very efficient, but as we age, the micro capillaries degenerate so skin does not receive the nourishment it needs. As a result, the metabolism of our skin cells slow down, collagen and elastin content are reduced and fine line, discolorations and wrinkles begin to appear. Pure oxygen regenerates cell to appear. Pure oxygen regenerates cell metabolism and penetrates into the epidermis, stimulating the new cell formation.

### **Specially designed for**

- Dilated capillaries
- Rosacea
- Ultra - Sensitive skin
- Acne - Prone skin
- Combination skin
- Aging skin over 50

Halina – Andre
